

STATEMENT OF PURPOSE

RS20372

This resolution would direct the Idaho Department of Health and Welfare and the Department of Administration to develop a plan to privatize the operation of the Idaho State School and Hospital and to sell or use the state owned land and buildings surrounding the facility in a way that will financially benefit the state of Idaho.

FISCAL NOTE

It is believed that a private organization could operate the Idaho State School and Hospital at least 50% less than is currently spent. This would save the state at least \$3 million annually in state funds. The sale of land and buildings surrounding the facility could generate \$50 million.
